Hi!

I'm Quinton Du Plooy

Head of Project Management at MOYO

THE

NUMBER ONE

THING THAT WILL CREATE

LASTING IMPACT

TO ENSURE PROJECT SUCCESS

WHAT IS PURPOSE?

Invokes imagination

Inspires others

Encourages innovation

Our **PURPOSE**

We enable people and organisations to **prosper** in the digital economy.

Our **VISION**

We strive to be a reputable **international** consulting, technology and talent provider that makes business change **simple**.

I M P A C T

INTENTIONALITY.

WHAT GOT US HERE TODAY IS MOST CERTAINLY NOT GOING TO KEEP US HERE OR MOVE US FORWARD.

“The best way to predict the future is to **create it.”**
- Abraham Lincoln

"By acting with intention, we turn routine behaviours into deliberate actions that will shape our future - starting today."

MEASURABILITY.

ARE YOU A MOMENTUM MAKER?

Vanity metrics resulting from over-governed frameworks lead to misaligned stakeholder expectations, slowing down momentum.

Value driven metrics creates momentum resulting in high velocity and high impact outcomes for our Clients

MOYO Value Assurance Centre (VAC) = Value definition + Value creation + Value realisation

"Focusing solely on vanity metrics can lead to misaligned expectations, whereas prioritising human-centric metrics ensure a more meaningful and accurate reflection of success."

PROGRESSIVE SMART SKILLS.

Fear, frustration and fragility is the enemy of progress!

Controlled effort on meaningful work is what keeps the level of progress in equilibrium.

"We need to protect our humanity by avoiding the temptation to exchange depth for speed, nuance for efficiency, and creativity and innovation for mere calculation."

A.S.K.

ACTIVELY SEEKING KNOWLEDGE

Never assume

Ask questions / be curious

Observe to fully understand the client's pain / frustration

Stay committed to life-long learning

"Knowledge is power, but wisdom is the character that knows how to use such power. So, stay curious and ASK."

MOYO

COMPLEXITY.

COMPLEXITY REQUIRES CREATIVITY

Self-inflicted complexity

We think differently - digital projects are not linear

Complex problems require creative solutions

See opportunities to leverage positive risk

We take time to solve complex problems fast

" Addressing the complexity of projects often requires creativity to simplify non-linear challenges and mitigate risks."

TRUST.

(SOLVE FOR TRUST)

Trust = Transparency + Truth

Not having all the answers is
NOT a sign of weakness

"Trust is the outcome of being transparent and truthful. Transparency leads to facts, which then establishes a sense of accountability. Once you have the facts, you can derive what is factually true. Truth is ultimately the author of a trust relationship."
