# Why Our Belief (Energy) Is Running Our Life

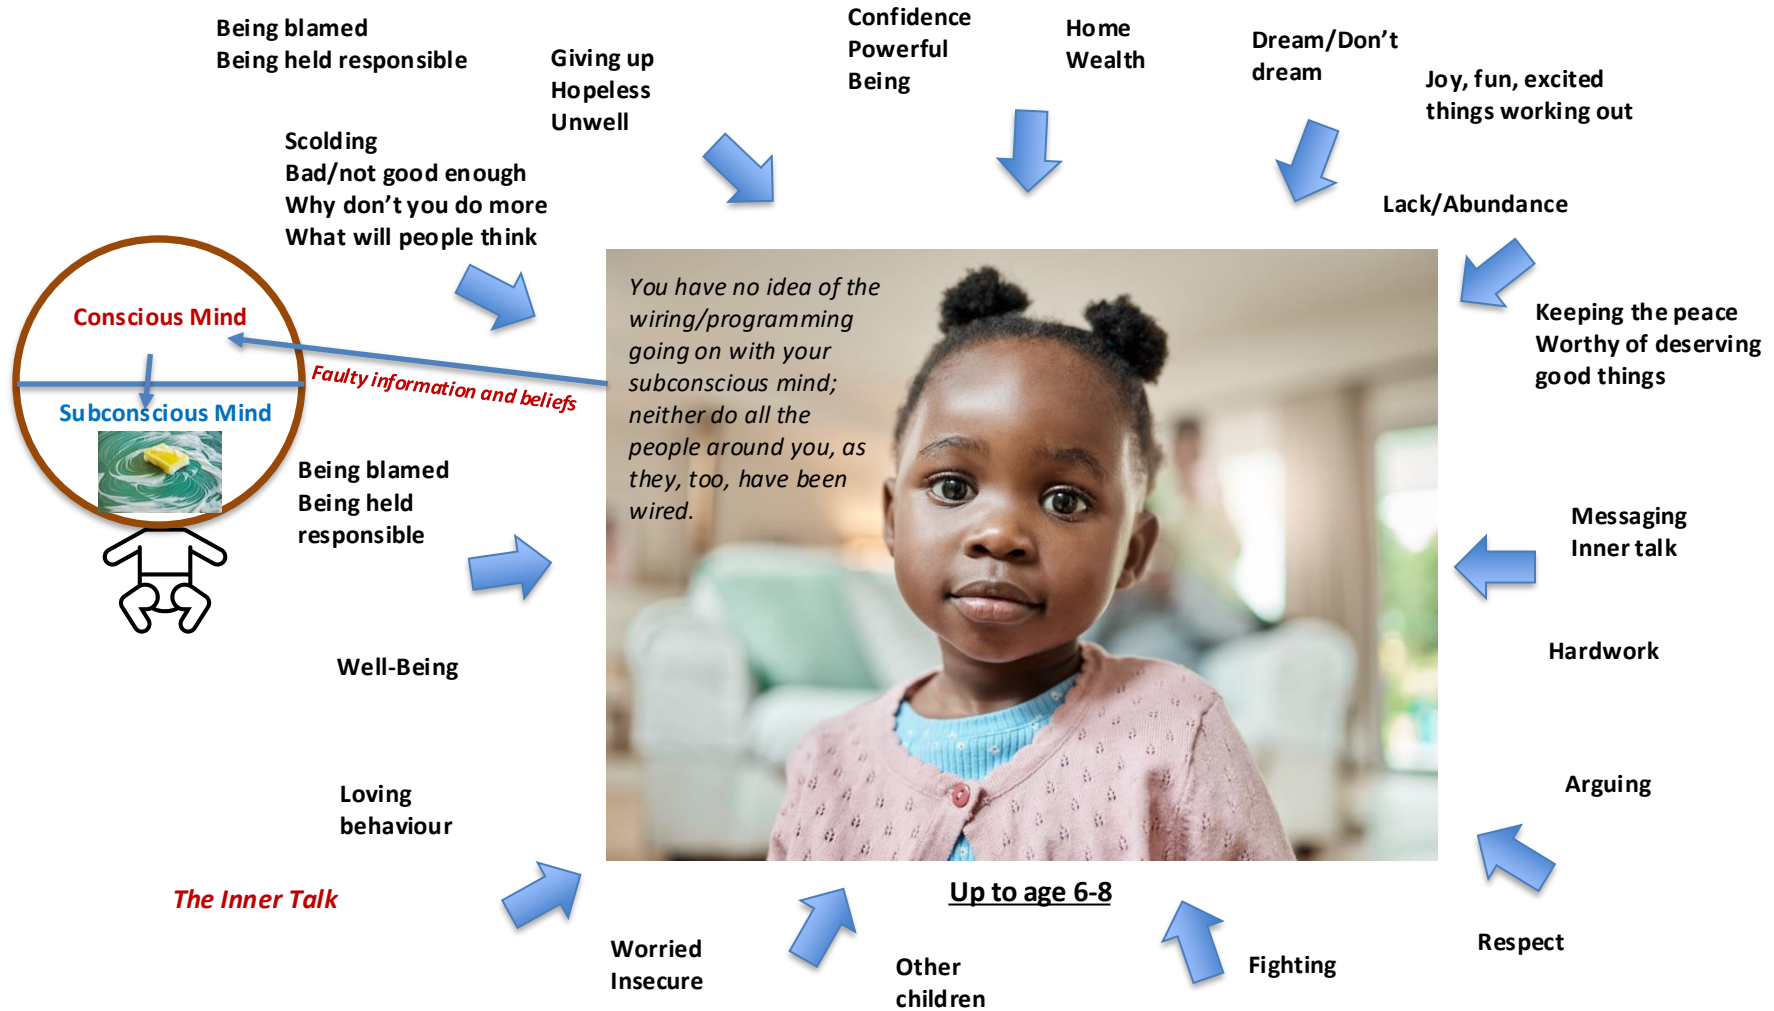

At birth, we are born with the energy frequency of love – high-vibration

*Humans play a crucial role in reminding us of our innate wisdom. Although we may not initially possess this awareness in our human form, it exists within our energetic self.*

# Why Our Belief (Energy) Is Running Our Life

# Why Our Belief (Energy) Is Running Our Life

## How to change a belief

- Establish a new belief that pushes the old belief out of the way,
- A displacement process is the rewiring process.

Repeated faulty thoughts input

Use your **conscious mind** thought choices to:

- Inundate
- Immerse
- Saturate
- Soak
- Drench
- Bombard
- Engulf

Law of attraction

*Change the inputs daily, and use new repetitive empowering messaging. If you don't do this daily, the momentum from the existing faulty beliefs will resurge like a fire not put out. But it's not work, it's fun, it's empowering, it's uplifting*

Faulty beliefs being displaced by natural high-vibe beliefs

Negative feelings and thoughts arise easily due to the momentum of active, limiting beliefs. Unwanted outcomes manifest readily because their energy aligns and interacts consistently with the law of attraction.

## The Creative Process - The Cycle of Life

The knowledge of life that explains why you are the Creator of your Reality and how to live it intentionally

# Current State of Affairs: Project Management

## Project Management by Default Beliefs (Conditioned PM):

- Focuses on change – a manifestation of **Asking** (wishing a desire fulfilled).
- Built on **co-creation**, and collaboration with a diverse network of stakeholders.
- Based on project managers' default beliefs & present-moment thought choices (**Allowing/Resisting**)
- Project managers automatically **Manifesting** the path to **Receiving** their creations in physical reality

A student once remarked: 'The hardest aspect of project management is dealing with individuals manifesting by default.'

*Sounds familiar?*

# Manifesting Project Success:

Through Awakened Project Management, Aligned With The Inner Being.

- Implementing projects with faulty beliefs leads to suboptimal results
- Limiting beliefs, rooted in childhood, foster self-doubt and scarcity mindsets, leading to poor decision-making and preventing fulfilling project implementation.
- By replacing these illusions with empowering truths, we can rewire our mindset, regain control, and achieve success and satisfying project outcomes.

**Wake up, align with your Inner Being, Co-create and Have Fun!**
