Rethink!

A 3D rendering of a human brain, viewed from a slightly elevated side angle. The brain is illuminated with vibrant, multi-colored lights. The left side (viewer's left) is bathed in warm orange and yellow light, while the right side (viewer's right) transitions into cool purple and blue tones. Numerous small, bright particles of light, in various colors (orange, yellow, blue, purple), are scattered throughout the scene, creating a sense of dynamic energy and neural activity. The background is a dark, deep purple, enhancing the luminosity of the brain and the floating particles.

Hope

“Progress is impossible without change, and those who cannot change their minds cannot change anything”

—George Bernard Shaw
